

大專校院境外學生接待家庭計畫
Light a Match Meet a Family — LMMF Program

What Is a Host Family?

A host family is a family-based arrangement that provides international students to communicate with the family members in the spare time. It will be a unique experience and enjoyment for your study abroad in Taiwan.

Family Members

The host families are local families who are enthusiastic about cultural exchange. All host families are required to complete a training course and pass an interview to become qualified host families.

What Can a Host Family Provide Me?

- Help you to adapt to the local lifestyle
- Experience different cultures & customs, local festivals, traditions, and cuisine
- Practice conversations in Mandarin to improve your language skills

Applicant Qualifications

All international students enrolled in colleges and universities in Taiwan are eligible to participate in the program. As long as you have a student ID card issued by a university, you are eligible to apply.

Time, Location and How To Apply

It is expected that from June 2023, students who want to participate need to apply for an account on the official website, and can initiate activities in the preferred cities after being approved.
